

Please do nothing that will weaken Indiana's Do Not Call List. Before Indiana started the list, my life was hell! It was to the point I was about to cancel my telephone service. I would receive as many as 12 calls a day. I hated it when my phone rang. Since the law started I have only received 2 calls, that were not supposed to call. On one of them, I said I was on the Do Not Call List and they disconnected immediately. Please do not weaken our law by enacting a less effective one. Sincerely, Zae Pierce
